The power to build business

TrueContext makes public debut

Local firm TrueContext Mobile Solutions Corp. has gone public following a reverse takeover by a capital pool company.

TrueContext, whose main product is the Pronto paperless form software, said the qualifying transaction for Carlaw Capital II Corp. to merge with TrueContext has received final approval from the TSX Venture Exchange.

The company added will start trading Thursday under the symbol "TMN."

Eight-year-old TrueContext has been expanding its global reach recently, with wins in Latin America and the United States in June and a reseller partnership forged in October 2008 to offer Pronto in Germany, Austria and Switzerland.

The technology, which is used on mobile devices, allows customers to eliminate the use of paper forms in actions such as inspections and audits, recording the replenishment needs of a store or ordering signage.
